best game on Steam." - Qbunnie "Could you please make a easier difficulty setting. It may not be as much fun if you die too quickly. It would also be great if you could be able to choose races other than human." - TheTyrannicPhoenix

Enjoyed The New Fantasy Action RPG - Rise, Tarnished, and Be Led By Grace to Brag About the Power of the Elden Ring and Become an Elden Lord - Story by JohnSmith I spent a few hours with the new Elden Ring game Rise, Tarnished, and Be Led By Grace to Brag About the Power of the Elden Ring and Become an Elden Lord on Steam this past weekend and I had to say this is a solid game. I am a big fan of The Witcher and The Witcher

---

2 so when I heard the developer Hinterland Games was working on a fantasy action RPG inspired by the series I had to check it out. I am not a fan of the formula of prequel, sequel, prequel that The Witcher and The Witcher 2 use but if this turns out like it has potential to be then I will be very happy. What I am not a fan of is the multiple loot boxes and the grind for loot. Please know this is a general review and you can find a better explanation of why these are a problem in the OP. This game is pretty good. Gameplay: 8/10 The combat in the game is pretty good. All of the actions you take in battle are mapped to a trigger button but there are no attack

---

moves. The game tends to give you a range of moves from an auto attack to using a shortsword or longsword to mash a quick melee attack. You can have up to four different items equipped and trigger a special move by interacting with an item. The special moves vary from a quick bash to a devastating combo attack. The combat is decent but it could be much better. Art Direction: 7/10 The game is pretty good in terms of the graphics and how it looks but what really sets it apart is the combat. The environments are pretty detailed, the character designs are unique, and

Q: Fourier Series Coefficient of Fractional Order I'm reading through Part IV of the following book but I'm stuck on a certain line. In particular, let  $f(t) = \sin(t^3) \quad \text{and} \quad F(x) = \frac{\sin(1)}{2} + \sum_{k=1}^{\infty} \frac{1}{\pi k} \cos(kx)$ . I'm trying to compute  $\begin{align*}$

---

---

$$\frac{1}{\pi} \lim_{t \rightarrow \pi} \frac{t^3 \cos(x)}{\sin(t^3)}$$

$$\frac{1}{\pi} \lim_{t \rightarrow \pi} \frac{t^3 \cos(x)}{\sin(x) + 3 \cos(t^3)}$$

$$\frac{1}{\pi} \lim_{t \rightarrow \pi} \left( \frac{1}{t} \sin(x) + 3 \cos(t^3) \right)$$

$$\frac{1}{\pi} \lim_{t \rightarrow \pi} \left( \frac{1}{t} \sin(x) + 3 \cos(t^3) \right)$$

where we have neglected a  $-1/2$  factor in front of  $\sin$

**Rare.**

**The goal of any RPG is to create a world full of great stories. And while some great RPGs have come along (such as the Final Fantasy series), there are some others that clearly missed the mark (for example, the Chrono series).**

**Regardless of which you play and if you have played them before, there is one thing all great RPGs have in common. They have a great story.**

**I think that one of the best aspects of the Gran Turismo series was the really great story that the series has. I mean, think about it. The second game was "Yeah yeah, I know, I know", but once neuropsychology was discovered by the medical community,

Public health officials argue that the tests will help to identify children who are HIV positive earlier in their lives, allowing them to start using anti-retroviral drugs immediately. Children suspected of being HIV-infected are often referred to specialist clinics. The new law makes blood tests mandatory in the case of babies born to HIV-positive mothers or whose parents have tested positive. If a child is HIV-positive, the parents face a fine of up to CHF25,000 (\$27,300; £16,500). The
