Suppose you are hungry. You are not quite sure what you would like to eat, whether it will be something healthy or something heavy. However, you do know which restaurant you want to eat in. You are now at the restaurant. You are approaching the counter, but are not quite sure what you are going to order. This is the world that you live in: you don't know anything about the location and the people who will be in the restaurant. It's a jungle out there, you can't even guess the menu there. All you know is that you have never been to this restaurant before. What will you choose? This is the test: are you able to decide what to order at the restaurant? Can you choose between several alternatives? You don't have time to waste. You better hurry up, you will soon be entering the restaurant. Do you have what it takes? *********************** To pass this quiz, you will have to look for 5 words from the list and identify the word with the help of the given code. The code contains not only the word, but also the semantic meaning of the word. However, since you don't know the meaning of the word, it is rather difficult to guess the code. To complete the quiz, you need to guess the code of at least one word. Find the code for it and solve the puzzle. *********************** Gifted game developer: Sasha Korotkevich (proctor); Timur Gasnikov (lead developer). *********************** Get the full version of Power Brain Trainer for free: PBT for Android PBT for iOS PBT for Windows My Account Accomplishments That tickled ya. Rating Just Bought YES I bought this game more than 5 years ago, but after that I forgot about it. Guess what time I saw the developer on Twitter, and it was the time to buy it again. I am glad, that I'm not mistaken. That tickled ya. Review c9d1549cdd

Hi everyone! This is Misha Fox, the GM and Organizer of the game Discord. We're so happy to have the opportunity to bring the RMMP to North America. We're pumped about our experience so far. To start with, we want to thank you for coming to RMMP for the first time! We know you've been hearing all about it from your friends, and so we want to show you what it's like. We know you'll be as excited as we are to start getting better at playing this game together. We know we can't do it without you! We're going to be talking about the game as a whole. To start with, we'll be talking about how to get a group of people together and actually play a game, including what it's like to be a player. We're going to be telling stories from our game. By telling you the stories, we can also answer questions that come up. We're also going to be talking about what we're currently working on. This is so everyone can start thinking about this game that we love so much and want everyone to play. We're going to have games that you can try out. This is because RMMP is very complex and hard to teach, so we're not going to be able to give you all the things you need to play. And finally, we're going to try and answer any questions that you may have, including answers to some of the questions I'm sure you're dying to ask! On to the first session: So you've all been talking so much about it, and we've gotten to know each other! Now we're going to put that knowledge to the test and see how well we can play a game. We're going to start with a simple thing. We're going to start with a simple game and a simple roleplaying scenario, and see if we can make this easy, and then get better at it as we go. Before we start playing a roleplaying game, we want to talk about the way to play. First, we're going to start with the essentials: make sure you know who's going to be playing the game and who's going to be GMing the game. We'll go over who's playing and who's GMing. We'll also go over the types
