The Tight-End R is a type of fixed guitar bridge designed and produced for Ibanez. World of Warcraft: Cataclysm is the expansion and/or DLC, not the expansion and/or DLC to the expansion, we've heard. The whole thing has been moved from its old level 60 spot to level 85 and, as such, is available to grab immediately, either through patches or digitally via the Battle.net Store. About the expansion, there's a lot to cover; you'll find a changelog below. To quote Blizzard's own blurb about it: Cataclysm is the third expansion for World of Warcraft—the story introduces a new level cap of 85, shattering the boundaries of Azeroth as you discover the secrets of the awesome power of the Titans. Throngs of brand-new playable characters and creatures with incredible powers allow you to unleash the fury of the Titans yourself as you and your friends explore the wondrous landscapes, uncover the hidden depths of the Outlands, and march ever closer to the heart of the Maelstrom. As the first layer of the Twilight War begins, the orcish Horde and the fiery, mysterious Night Elven people plot their next move against the Alliance. And a spirit of evil has set its sights on the sacred land of Azeroth. Cataclysm is out now. There's lots of Cataclysm news today, so all you've got to do to get your Warcraft fix is read on. ORIGINAL STORY: World of Warcraft: Cataclysm is the expansion and/or DLC, not the expansion and/or DLC to the expansion, Blizzard has clarified. The whole thing has been moved from its old level 60 spot to level 85 and, as such, is available to grab immediately, either through patches or digitally via the Battle.net Store. About the expansion, there's 79a2804d6b
